As a Christian, it is sometimes hard to not cry out, "Why me Lord?" I'm a follower, I believe in your Word. Why not pick on someone else?" Glen's book helped remind me that God does not promise those that believe in Him will not have pain and suffering, He promises to give us the strength to go through those trials. In his book Glen shares his deepest feelings and also reminds us of what role the caregiver plays in a most difficult situation. Even in his deepest pain, the joy and love he has for the Lord and his beautiful wife Debbie and family, is evident throughout the pages. For anyone that suffers or has a loved one that suffers, this book shows you, there is always hope, even when you feel you keep getting knocked down. Focus on God's love and His promises. After reading this book I come away feeling, I can go through anything life throws at me, if I keep my faith.1 of 1 people found the following review helpful. Bravely transparent story of a truly substantial life.By JJ EPDGlen has done a masterful job at recounting a story which yet continues. I truly could not put it down! While I have crossed paths with the family on many occasions, I didn't know the half of it. That said, this is a story with a purpose; not merely a memoir. Whatever one's challenges in life, Glen points the reader to real truth, real hope, and real purpose through a personal relationship with a very real God. Well done my partner, brother, and friend.0 of 0 people found the following review helpful. We have been encouraged by their determination to face the worst while maintaining their own vigil of prayerBy CustomerHaving read "Overcome" with my wife, also a long time cancer victim, we are powerfully inspired by Glen and Debbie Kirkpatrick's courage and faith in God while demonstrating that one's faith in God can sustain the hope that those experiencing health challenges face. We have been encouraged by their determination to face the worst while maintaining their own vigil of prayer, trust in God and receiving such amazing support.We recommend this painfully truthful book to anyone and their family or friends who face health challenges. Thank you Glen and Debbie! RJH
